*Welcome to our spring production sale!*

We are excited to invite you to our annual event. Much like last year the cattle industry finds itself in a very favorable position which we all agree is probably our time as cattlemen to be in the driver's seat. With that being said many experts throughout the industry do not see the trends changing soon for us people who are the grass roots producers. The more quality beef cows a producer can have in their inventory the more profitable they will at this given time.

We believe this year's bull offering is one of our best yet. The maturity of these bulls is further along in development than in years past due to their age, so we are confident that it will be a huge advantage for you once these bulls get turned out and start covering the range. We have increased our numbers slightly as well in order to offer a little more selection and open up more opportunities for the volume discount to take effect as is stated in the catalog. Last year we received feedback that volume discount was helping some customers make decisions on replacing older bulls that were aging out of their productive lifespan.

The feedback on our bull soundness has continued to be positive throughout the years with our development program being what it has always been. It is a philosophy that we believe in strongly and we will always abide by. It is a positive reassurance that we are on the right track to increase profits for all of us.

We look forward to seeing as many of you in Ramsey Montana on February 28th. We enjoy the viewing of the cattle and the camaraderie that goes along with that. Like always if you would like to make a purchase and can't attend, we have alternative ways to assist you in that regard. Please don't hesitate to reach out to us at any time to discuss those options.

Thank you,

*Never Sweat Ranch / Cody, Ashley, & Jonah Lee / Darrell & Jessica Lee*

*Never

# NEVER SWEAT RANCH

## FEBRUARY 28, 2026

1:00 PM MST

## BULL SALE

Ramsay, MT

Lunch Served Sale Day  
at 11:30 am MST

MONTANA LIVESTOCK AUCTION

### Auctioneer

Rodger Jacobs (406) 698-7686 or (406) 259-2544

### Sale Representatives

Rick Peverly (406) 369-2640 Kurt Kangus (661) 706-2041

### Sale Location

Montana Livestock Auction  
100 Cattle Drive Ramsay, MT 59748

### Sale order

Will be available sale day.

### Terms and Conditions

All cattle sell under the terms and conditions of the American Angus Association. Terms of the sale are cash on sale day, unless prior arrangements have been made. Announcements made the day of the sale take precedence over all the printed information.

### Health

Interstate health papers are furnished on all the cattle selling. All bulls are semen tested and are BVD-PI tested to be free by Dr. Clark D.V.M. Bulls have been given two doses each of wart and foot rot vaccine. Heifers have had their fall vaccinations including the brucellosis vaccine and are ready to fit into your programs.

### Retained ownership

Never Sweat Ranch are retaining 1/3 revenue semen interest on all bulls, unless otherwise stated. Full possession and salvage value sell on all bulls.

### Volume Discount

We are offering a volume discount according to the number of bulls purchased. Purchase 4 or more bulls and receive a 5% discount.

### Trucking

Free delivery on all bulls up to 500 miles with total purchases of \$3500.00 or more. A \$100.00 discount per bull if taken home the day of the sale. The balance of the distance will be at cost. Bulls will be delivered starting mid-March. Females are to be taken home the day of the sale, unless prior arrangements have been made.

### Registrations

Transferred on request by buyer

### EPDs

EPDs are current as of 2/6/26. Updated EPDs can be viewed at [www.Angus.org](http://www.Angus.org)

### Liability

All persons attending the sale do so at their own risk, legal or otherwise for their own safety or the behavior of the animals. The owner's and sale staff assume no liability for property loss or any accidents that may occur.

### First Year breeding guarantee

All bulls selling for \$2,500.00 or more will be covered 50% by Never Sweat Ranch. If they are injured during their first breeding season and not able to return to service during that first breeding season. Breeding season is defined as the 90 day period following the first turnout of the bulls. 50% of the value of the injured bull, minus one half salvage value, will be given as credit in a future sale or toward a replacement bull if one is available. Salvage value, if any, will be split equally between Never Sweat Ranch and the buyer. All injured bulls must be diagnosed by a veterinarian of our choice. Please notify us as soon as possible should injury occur and prior to injured bull being sold for salvage. All claims must be made by September 1st, 2026. This does not include death as that can be insured for.

*Example 1: A \$5,000.00 bull is injured, a credit of \$2,500.00 minus 1/2 any salvage value will be given to the buyer.*

*Example 2: A \$2,500.00 bull is injured, a credit of \$1,250.00 minus 1/2 any salvage value will be given to the buyer.*

*Example 3: A \$2,000.00 bull is injured, no credit is given. Buyer retains all salvage value.*

### Insurance

Never Sweat Ranch will help cover insurance costs with customers willing to participate. We will pay 4% of sale price up to \$5,999.00 or 6% on \$6,000.00 or greater towards a Stockmen's Insurance Policy. The balance of the policy will be paid by the customer. If a customer chooses to decline the policy Never Sweat Ranch has no obligation's to cover any loss due to injury, sickness or death. We guarantee all cattle to be sound the day of sale.

### Accommodations

Best Western Plus Butte – 406-494-3500  
Comfort Inn Butte – 406-494-8850.

### Supplement Information

Will be available on sale day.

### Genetic Recessives

This sale offering is free of all known recessives monitored by the American Angus Association, other than the bulls with DDC listed after their registration number.

# 2026 Raffle

WIN THESE  
ON  
SALE DAY!

This year we are offering two different raffle items,  
a Yeti Roadie Portable Cooler or a Portable Power Station.

There will be two opportunities to win a raffle!

Every lot purchased in the sale is an opportunity to win  
either item

# Driving the science of better breeding

There's little room for error in the cattle business. You need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI\*) provides it through genomically-enhanced expected progeny differences (GE-EPDs).

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

- Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs
- Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)
- The ability to make more rapid progress for traits that are important to you, due to:
  - more accurate selection
  - easier identification of genetic outliers
  - the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same level of accuracy as if they have recorded 7-33 progeny, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation at [www.angus.org](http://www.angus.org).

### How do you know if EPDs are genomically-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo, Angus GS™ powered by Neogen or the HD50K® by Zoetis.

[Angus.org/AGI](http://Angus.org/AGI)

## Explanation of EPDs

**Calving Ease Direct (CED) EPD:** is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which an sire's calves will be born when he is bred to first-calf heifers.

**Birth (BW) EPD:** The birth weight EPD is a predictor of an individual's contribution to its progeny's weight at birth and is a comparison of breed average, measured in pounds.

**Weaning (WW) EPD:** The weaning weight EPD is the amount of increase or decrease in weaning weight you could expect from the progeny of a bull compared to an average bull in the breed for weaning weight, measured in pounds.

**Milk EPD:** The milk EPD is a predictor of a sire's genetic merit for milk and mothering ability expressed in his daughters, measured in pounds. It is that part of weaning weight attributed to milk production.

**Yearling Weight (YW) EPD:** The yearling weight EPD is the amount of increase or decrease in yearling weight you could expect from the progeny of a bull compared to an average bull in the breed for yearling weight, measured in pounds.

**Weaned Calf Value (\$W):** An index value expressed in dollars per head, is the expected avg difference in future progeny performance for preweaning merit.

**Maternal Weaned Calf Value (\$M):** An index expressed in dollars per head, predicts profitability differences from conception to weaning with the underlying breeding objective assuming that individuals retain their own replacement females within herd and sell the rest of the cull female and all male progeny as feeder calves.

**Actual Birth Weight:** The actual weight of the calf within 24 hours after birth, measured in pounds.

**205 Day Weight:** The weaning weight of the calf adjusted to a common age of 205 days and adjusted for the age of the dam, measured in pounds.

**205 Day Ratio:** A direct comparison of one calf to all others in his contemporary group. A weaning ratio of 100 is always average.

However, some individuals are "average" only because their contemporary group was small.
